PPE (Personal Protective Equipment) line with RWP (Radiation Waste Processing) Gloves with both radiation shielding and non radiation shielding.

A new product line of Radiation Attenuating Gloves. This line features ultra durable gloves which shield against Alpha, Beta, and Gamma radiation, with the added option for chemical resistance. This puncture resistance line of Polyurethane and Polyurethane CSM Shielding Gloves is designed for RWP. These gloves can be made to order varying from 12 to 21 inches in length, with or without beading, in a size 10 hand specific. The entire line offers an environmental friendly disposal in efforts to follow our GREEN movement.

Be sure to inquire about our Shielding Blankets and Tarps.
